

Rescue Praised Operation

A mock search and rescue operation Saturday in the rugged Rolling Hills area testing the efficiency of Explorer Post 726X received high praise of Sheriff William A. Kennard, of the Lennox sheriff's office, who watched the operation in an advisory capacity.

Purpose of the hour-long search, in which 14 boys participated was to train the local unit in rescue operations. The boys used a skirmish line to

comb the valley for an "injured" man who had to be given first aid on the spot and then carried up a steep incline on an improvised stretcher.

The group, under the leadership of R. F. Evans, will continue training in rescue work and will be used as an exhibition and training group for other explorer posts, it was stated.

CONSTIPATION FAST PROVEN METHOD RELIEF IN 20 MINUTES

Learn the true facts of disease. Many people constantly complain of stomach disorders, such as gas, bloating, burning of the stomach, abdominal cramps, nausea and vomiting, when in reality, the lower part of the bowels is to blame. It is a well known fact that most distress in the abdominal region is self diagnosed as stomach trouble. This misconception is a natural one. Constipation results in the formation of large quantities of poisons, that gain entrance into all parts of the body by means of the

blood stream and lymph channels. The effect is the same as it would be if you were to swallow a dose of poison every day. The first and last thought in the mind of most people when they become constipated is to take a physic, yet no physic was ever made that would cure constipation. Continued use of physics leads to definite ailments of the colon itself. Stop fooling yourself. Know the true facts of disease. Life or Death can be due to neglect of your physical condition.

HEART

Over half of the deaths in the country are due to Heart and Blood Vascular disorders

GALL BLADDER

The Gall Bladder is of interest clinically only when it becomes infected or otherwise is injured. Under such circumstances it no longer concentrates bile in the normal manner but pours out a fluid which differs greatly in composition from the normal Bile; or it harbors a stone which causes

trouble or perhaps when it is the site of a malignant growth. Fully one half of the patients who come to me believing they have stomach Ulcer or gastritis are really affected with some form of Gall Bladder disorder.

Still No Job For Father Of Twins

James Ridge Jr., 23, father of twin girls born to his wife, 15-year-old Mrs. Doris Jean Ridge, was grateful this week for the way Torrance and Lomita residents responded with desperately needed baby equipment, including clothing, blankets, and baby crib.

Ridge still did not have a job, however, and he continued to worry about the mounting hospital bills which he knew would be difficult to pay without income.

He is a roofer and has done house painting and spray painting on cars. He lives at 2436 West 255th street, Lomita. His phone is DA. 6-7642.

CHICKEN-WIRE FENCES don't help much in keeping animals and children out of dangerous oil sumps. Such a fence has come down at this sump at 237th st. and Pennsylvania. The sump is a constant temptation to children from

nearby homes. Torrance lawmakers have proposed a tight link fence or doing away with sumps altogether. The ordinance is being drafted now.

OPENS NEW GP REFINERY

A. E. Thompson, manager of the Torrance General Petroleum refinery, has received word from C. G. Cortelyou that the Ferndale (Wash.) Mobilgas refinery is officially "on steam."

Cortelyou, formerly located at Torrance as chief design engineer, is now manager of the Ferndale plant.

Located on an 850-acre Puget Sound site near Bellingham, construction of the 350,000-barrel per day refinery took nearly 18 months to complete. Bechtel corporation was the contractor for the project.

Principal products of the refinery are gasoline, fuel oils, distillates and liquefied petroleum gases.

Sixty-three former Torrance employees have transferred to Ferndale to help staff the new \$40,000,000 plant.

SUMPS...

(Continued From Page 1)
made by the beginning of this week.

County Territory

Areas in the county of Los Angeles, like the sump into which the little dog fell, are governed by the Kathy Fiscus ordinance which calls for a fence around all sumps.

According to officials from the County Engineering Department, Lennox Sheriff's station is responsible for enforcing the ordinance and citing violators.

The City Council of Los Angeles is presently drafting an amendment to its present law contained in the Fire Prevention Code which will tighten the provisions covering oil derricks and oil sumps.

"We expect the Los Angeles law to be a model law," George Powell, land use investigator for Torrance said. "We're all trying to adopt a uniform ordinance."

Young Soloist To Play At Band Concert

Among the many to be presented for the third Joint Youth Band-Artists Concert, will be friends and admirers of Camilla Wicks, young violinist born and raised in Long Beach, and who will be featured as guest soloist for this concert, to be given in the Torrance Civic Auditorium Tuesday evening, April 12.

The Torrance Area Youth Band will play the first half of the concert and Miss Wicks will play the latter half. Clement Hutchinson, clarinetist; will be the featured instrumentalist on the band's share of the concert.

Aside from the regular 7000 season ticket holders to these concerts, around 300 seats will be available to the general public for this concert. Persons interested in tickets may write direct to the Association, Box 548, Torrance, or call FAirfax 8-5273.

P-TA Names Officers At WALTERIA

Election of officers was held recently at the WALTERIA P-TA meeting, and Mrs. C. D. Jackson was elected president.

The other officers are Mrs. C. W. Johnson, 1st vice-president; Alfred Artuso, 2nd vice-president; Mrs. E. B. Pfau, recording secretary; and Mrs. R. F. Maynes, treasurer.

Others are Mmes. Henry Fink, financial secretary; Dora Lewis, auditor; and Carl Cramer, historian.

The fathers emerged the winners at the spelling bee between themselves and the 8th grade pupils. Also featured on the program was a barber shop quartet with Nicholas Dellan, James Hamilton, Edward Sheets, and R. McDaniel, who are teachers at the school. Miss Patricia Clere played the piano.

Men of the faculty served the refreshments, and room prizes were won by James Hamilton, Mrs. Florence Porter and Mrs. Zelpha Maynard.
